DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 41 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 41, it is unclear what structural relationship is being claimed by the incomplete recitation "disposed in abutting relation."

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 33-35, 37-39, and 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Charters (US 5,916,151).

Charters discloses an instrument for dilating a body cavity including: a control ring or "support frame" 31; at least three blades 11; means operatively interconnecting the support frame and the blade, i.e., 52, for yieldingly biasing the elongated section of a blade into engagement with the elongated section of another blade; and means for restraining pivotal movement thereof at selected angles by means of a set of blocks (50, 55) (Figs. 3, 5, 7 and 9, cols. 3-4 and col. 5, lines 1-19).

It is also noted that Charters clearly discloses each blade to have an intermediate section that is pivotally connected to the frame by a hole 37 and cable 35 (Fig. 3).

Note, during examination, claims must be interpreted as broadly as their terms reasonably allow. This means that the words of the claim must be given their plain meaning unless applicant has provided a clear definition in the specification. In re Zletz, 13 USPQ2d 1320, 1322 (Fed. Cir. 1989). Thus, "blade" is being interpreted to be a "long, thin piece" (Source: The American Heritage® Dictionary of the English Language: Fourth Edition. 2000).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 40 is rejected under 35 U.S.C. 103(a) as being unpatentable over Charters (US 5,916,151).

Charters discloses the claimed invention except for the claimed shape of the support frame. It would have been an obvious matter of design choice to one of ordinary skill in the art at the time the invention was made to have constructed the support frame with an octagonal shape, since applicant has not disclosed that this solves any stated problem or is anything more than one of numerous shapes or configurations a person of ordinary skill in the art would find obvious for the purpose of providing a support frame. In re Dailey and Eilers, 149 USPQ 47 (1966).

Response to Arguments

Applicant's arguments submitted have been fully considered.

Applicant's arguments with respect to rejections over Charters are not persuasive for the reasons clearly stated in this office action.

Allowable Subject Matter

Claim 36 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
